to bus

or not to bus...

If that is the question, the answer is BUS. Most likely every beach club on the boardwalk will be having a party on the same night, so parking is extremely limited, and if you are driving, carpooling is suggested.

We are extending the party by **1 hour** to do our part and help the night end as happily as it begins. Additional sweet treats will be available, the lights will stay on, the DJ will play on, & the wheels on the bus will still go round and round.
